

Mission to Africa Pastors Conference, Day 1, February 4, 2011 Via Town Christ Life Church Bomi County

Tony:

For prayer intercessors: The gospel has been suppressed until now in the village. Pray that the shaking that is going on here would continue to explode and the works of the enemy would continue to be bound and the plans of Heaven continue to be loosed.

The Presence of God was powerfully manifested today. Wave upon wave of His Glory washed over me during worship and I was “overcome!” We are now entering into what I again find no words for. Out of my mouth comes “watch me pray” and instantly I am drawn to a pastor to go to him and wrap my arms around him and just thank God for what He is doing. Well, I did that and felt rivers flowing to the man. He began vibrating wildly as I hugged him. Then the teaching went on and it was being sucked out of me with the intense hunger of the people. We started demonstrating the power of God thru healing. The pastor that I had imparted to thru the hug now glued himself to me as I began to demonstrate. (Such hunger coming from him.) I assisted him as he prayed. After a time of many healings and miracles we entered into high praise again. It felt like Elijah and Elisha. This time the same pastor came to me and wrapped his arms around me and said “I want everything you have, right now!” Well, instantly we both just dropped to the floor as the lightning of God struck us. We laid on the floor just vibrating under the Power. Again I felt a great flow of power going thru me to him. I felt it was a time of commissioning for him. Oh how God cares about the one!

During the praise time today, I danced right out of the building, on to the street and right into the open houses of the Muslims around the church. Wow, it was wild. There were Muslim families laughing and dancing with me. It was a powerful experience. I saw in the spirit the river flowing out from under the temple doors to the street and just followed the river. Yea God!

I will tell you of one man I prayed for. It began with his face looking like he was 100 years old, because pressure of being in tormenting pain for many, many years. He had some religious background with church during his youth years but confessed no relationship with Jesus until today. I prayed several times and each time his face changed by years younger as more of the disease left his body. He could barely walk with the help of a crutch when we started. Then the crutch was put down, then the pain began to depart from his body parts. It took maybe 15 minutes of prayer, but when total restoration happened he looked like a forty year old. This is hard to describe. Time lapse photography would have been great for this. After we had left the meeting, the cooks asked him if he wanted to eat something and he said “Don’t you see, I have received food to eat that you do not understand! Today, I have been given my life back!” Two hours after we had left the church we got word that he was seen running down the streets of the town yelling out declarations that JESUS had healed him.

Gene:

This is so, so, soooo awesome. Thanks to all for praying.

We walked into the church and I felt so humbled to be honored to the degree that we were honored as we walked in. And God loves when we honor Him and His missionaries. It set the atmosphere for exciting things. The atmosphere was one of worship and then Rev Kettor released a prayer to start God’s intent for all the leaders of this region. We worshipped and then praised God and then prayed and then worshipped again then praised God with an extreme desire to see His Presence. That last for a long time

or just all out dancing and joy, men, women and children, full throttle until the Pastor took time to introduce the team. God prepared a platform for Pastor Tony to deliver a kingdom message on healing. The ministry of the kingdom was the topic of ministry today and being a co-laborer with Holy Spirit and how you enter into this ministry like a child working hand and hand with Holy Ghost. I was taking some pictures and zooming in on different faces and they were very intent on hearing these nuggets of truth and experiencing working with Holy Spirit. When God opened their eyes to see how wonderful it is to follow Holy Spirit and how non religious it is, He was convincing them that they can do the same things and even greater things than Jesus did. After the message penetrated, Pastor Tony left the floor open for a demonstration of the power of God thru healing. A lady came forth with pain from the mid back down her back down to her feet. Pastor Tony interviewed her with simple questions and found out enough info about her condition, called up two of the pastors to assist him and he walked them thru the steps for healing. Several minutes of specific prayer and asking her to move certain parts of her body opened up the release for healing and consistent prayer as the Holy Spirit was leading eventually within 10 minutes had her 100% healing. I have a picture of her before with her face just totally distressed and hopeless and a picture after with a smile and a countenance change, night and day. She continued to walk around and jump and was very thankful to God and the team for her healing. After that it opened up the door for many others that experienced similar conditions.

I saw THREE people leave their walking sticks behind. Some received total and some partial healing, but we know what God starts, He is going to finish. It was so precious watching the children's faces, future men and women of God sitting in that anointing and being deposited with kingdom anointing. We then prayed over other pastors and leaders for needs such as strength, anointing, relationships, restoration. ALL were touched by God and went back to their seats changed. By the time we were done, you could see a fresh new fire in their faces and a desire for the ministry of the kingdom.

We were majorly blessed and are seeing how God is going to use today's meeting for a launching pad for tonight's community outreach. We are believing for great and mighty things and are very thankful to God for this opportunity. Amen and Amen!!

Rev. Kettor;

This place has been a demonic stronghold. It has been 95% Muslim. The churches that are here are not powerful, but have been suppressed by the Islamic system and religious tradition. The Muslim people do not want the gospel to be preached here. Any program that has come here has been suppressed and shut down UP UNTIL NOW. All efforts were made to stop us from coming. This morning many Muslims were told they could not come into the church. But there was such power flowing some Muslims just walked in to be saved. What we have seen here so far has never been seen here before. It is so powerful. The news is now spreading of what Jesus is doing.

Today as we are typing this a man that was crippled came in hobbling on a cane. Right now he is still in church DANCING, no cane and totally without any pain and every joint completely loosed. He has been dancing straight for two hours now and going strong, just praising the Lord full of joy. He received the Lord today and a whole lot more. We must understand how powerful all of what the Lord is doing in this place now.

A woman that for past 5 years she suffered from a spirit of infirmity. Today she felt a release in her body. Something left her. She had a walking stick and she dropped it, ran around the church. According to her she went to hospitals but could not be cured. She was not a Christian. She was at the outreach

last night and just watched as others were touched by the Lord. She decided to come today. She got completely healed and then received the Lord!

A lady for the last 4 years married a man and suffered with an issue of blood. Up to this morning she had a constant flow of blood. After prayer this morning she went to the bathroom to check out what happened. She saw that instantly the flow of blood stopped. She came back jubilating!

A woman with 6 years there was a growth under her navel. She came last night and watched but didn't go for prayer. Today she came to get prayer. She watched the tumor disappear and all the pain left with the tumor. Her pain was so bad that she could hardly ever go out of her house, but now she is free.

A man was walking 5 years ago, he fell and blood came out of his nose and mouth. He had a stroke and arthritis BUT today he was completely healed. He ran out of the church down the streets proclaiming the healing of the Lord. He said "never in my life have I seen or heard of such things, Jesus is alive and I have received Him and His healing today."

A lady had two problems, Instantly healed. One with ulcers. The pain was so bad she couldn't sing or dance. Also, her eyesight was very dim. She said "I felt something dropping off my eyes like scales and I could see perfectly and the ulcer pain was completely removed and she said I am healed!"

A woman that for 6 years she was walking with a stick because she was paralyzed. Half way into prayer, she yelled out to Jesus, dropped her walking stick and starting running around the building, completely restored.

A lady that for 2 years could not bend over because of pain in her back. INSTANTLY the pain disappeared and she was able to bend over and jump. Wow, what a glorious sight.

Lance:

Wow!!! I do not know how to put in words the glory of God today. The praise and worship was amazing! We danced and sang for a long time. I was soaked with sweat and completely exhausted when we were finished. Then Pastor Tony gave a powerful message. After his teaching he asked for people that need prayer, people that were sick and hurting. A lady came forward with severe pain in both legs and feet, all the way up to the small of her back. She had this pain for several years. Pastor Tony instructed 2 of the pastors to pray for her. I videotaped all of this. They prayed for a minute or so and then asked her how she felt. She responded that the pain was getting better. They prayed again. They did this several times until she was completely restored and running around the building!!! This ignited the crowd and people lined up for prayer. I prayed for many people with pains in their stomachs and sides. All of them received healing!! 2 women wanted children but could not conceive. 1 woman had a stomach tumor. I prayed for her tumor and pain. She said that the pain had left her and the tumor gone! Then I told her that God would give her a child and she would dedicate that child to the Lord. She agreed and we prayed. Then I told her and the other woman to go home and make a baby!! Several pastors came forward for prayer. One had stomach ulcers and severe pain in the chest and stomach. We prayed and God healed him!! Another pastor had a bad skin irritation that caused him to itch real bad all the time. He had this condition for years. We prayed and he was healed! The worship began again and it was so wonderful. Everyone was praising and God with everything they had. The anointing was so heavy, you could see the glory of God on everyone's face!!! I was humbled and in awe.

So many miracles and healing took place in Jesus name. I am very grateful that God has brought me to this place and gave me this opportunity. I cannot wait for Lisa and Jacob to experience this.

Casey:

So far today has just been awesome. We started the pastors conference with intense praise and worship that went on for about an hour. At one point they called everyone up front to dance. So of course we had to join them. It just really showed them that these white boys have got no rhythm. It was so much fun having the older pastors and children try to teach us how they dance. It took awhile but I finally got it, then the music ended. Next time look.

The session today was on working with the Holy Spirit and how to pray with someone. The pastors were hanging on every word that was spoken and they were soaking it all in. When Tony was almost finished he called out a word of knowledge for weakness and joint pain. I think about eight or so came in response to the word. Each of them were using canes and some kind of homemade walking stick to move around. We called up some pastors that wanted to pray, well we came to train them up so it's now or never. At first only one wanted to pray, but once they saw how easy it was and that the local pastor was being used to heal this woman that couldn't walk without a walking stick they all wanted a shot at praying. It was so cool to watch as the Holy Spirit began to move and pour out healing in this place. One by one each of the persons that were being prayed for began to rise up and walk, jump, and run around. The air was electric and the faith level in this place went through the roof. All these crippled people all walking on their own WOW. I wish all of you could have seen Lance and Gene. They were so excited you would have thought they were going to pop. God is good. After awhile we called up anyone else that needed prayer to come. I think the rest of the church came forward. Most of the ones that I prayed for all had pain in their side. It seems to be a very common thing here. No matter God was here to heal and all of them walked away healed. I did get to pray for a woman that had a huge tumor in her stomach. As she placed her hands on her stomach and I placed my hands over hers I could feel the tumor. It was that big, but as I prayed we could feel it shrink and shrink and shrink some more until it was all gone. Now I don't care what anybody says that was cool. She got very excited and started to twist and bend and poke at her stomach trying to find it. The look on their face is priceless. Thank you Jesus for using me. The meeting ended with worship again and before we knew it several hours had passed. What a way to spend the day. Thank you to everyone back home praying for us. Blessings.
