

**Mission to Africa** Outreach #5, February 7, 2011 Gba Town, Bomi County

So, with no communication here we were just wondering who won the super bowl. We got the answer. It is twofold: 1. Casey had a dream and Megan told him it was the bobsledders and 2. As we were in the Presence of the Lord He revealed to score was: GOD 100 SATAN 0

**Tony:**

**AGAIN MULTITUDES OF MUSLIMS RUNNING TO JESUS.** We have now seen more than a couple thousand muslims come to Jesus and only God knows how many we don't know about. Heaven invades again.

Thank you intercessors, we are feeling your prayers!

Our first daytime outreach. We drove into the main market and people had to move stuff out of the way for us to get thru. We drove thru all the booths to the back of the market where the praise team had set up under a huge MANGO tree and was playing. A good size crowd had already gathered. NOBODY was dancing, at first I didn't understand that, then it hit me that they were pretty much all Muslims. This was a Muslim market.

The spirit of praise and dance came upon me and I danced out into the crowd looking for those that would join in. Some of the Muslims were mocking me and I praised even more. Finally, the children gathered round us and we busted out into the open singing and dancing with many children. I saw the faces of the big people begin to melt as they saw how we loved the children and how happy the children were.

Well, today Lance led the charge with a message to their hearts from God. The challenge came, if you will come He will meet you. After some words of knowledge, the first round started. The pastors dove in with us. We had wave after wave of people coming for prayer. As they were getting healed they would run back to the market and more would come.

There were so many miracles today, Oh God, we bless you. But I want to tell you just one thing that happened to me: The very first thing when the people started coming up for healing. A man came up to me and said "you need to pray for this lady!" And he pointed to a lady in a wheelchair. I thought that he was one of the pastors so I told him "you pray for her, why do you want me to do it?" Now I try not to go for the big cases in the beginning unless Holy Spirit has instructed me or is on me with power. I did NOT feel my faith was enough to do the job, so I told the man that he needed to. While he kept coming to me I was trying to pray for others and each time had to get a pastor over to finish the prayer because it wasn't happening for me. Why are we so dense sometimes? Each of those people were instantly healed as soon as the pastors touched them. The man comes and asks me again and I said "you are a pastor, you pray." He said "why are you calling me a pastor, I am not, that is my wife in the wheelchair, please come and pray." Well, I was beginning to get the picture. There were people all around waiting to see what was going to happen to this lady and none of the pastors or team has gone to her. OK, Lord I get it. So, I went up her. As I stood before her, I spoke with Holy Spirit: "I do not want to dishonor Your Name Lord, I do not want to cause this meeting to fail because my faith is too small, help me." Well I asked her what do you want from God (seems like a stupid question, right). She said "I want to walk, please pray!" I found out that she was in a church service a number of years ago and just fell to the ground with a stroke that took out her entire left side and made her right side very weak. Multitudes of

prayer from the church has not changed a thing. Now I knew I could get her pain out, so I asked her if she had any pain. She said "Yes, my left shoulder is always in very bad pain and I cannot move my hand, arm or shoulder at all." So, I laid my hand on her shoulder and commanded the pain to go. In a split second her arm shot up into the air and she was waiving her arm all around. She was smiling and began to laugh. It seemed like a 100 faces were pressed in close watching. Then I looked at her and she said "take my hand, I am going to get up and walk right now." THAT'S IT, now I see, God wanted to use HER faith to bring the healing. She was in full faith that I would pray and she would walk. So, I declared, "In the Name of Jesus, rise up and walk!" BAM, up she comes and stands on her own two feet. Then she starts to take small steps. I walked with her for awhile and she kept saying "He is healing me, He is healing me, I feel His Presence and Power in my body, Thank You Jesus!" Then her granddaughter took over and walked with her for awhile. After about half an hour she said "take my wheelchair away, I am walking home!" Glory, Glory, Glory to God!

### **Rev. Kettor;**

We experienced something today. Where we were supposed to have our outreach was occupied by the marketteers. There was a strong resistance. Even the pastor that was supposed to host us left last night and was supposed to prepare the site and when we got there today we found out he went to Monrovia instead. Very strong resistance to our going to this muslim market.

On the outreach ground, we were told that this place has a street evangelist that has been extorting money from people, pretending to get people healed and getting them to pay for it in advance and then praying with nothing happening and telling them to wait for some days. So, the Muslims saw us and thought that we were part of this other group of false prophets, so they didn't want to come to the outreach. As soon as the REAL healing started taking place those that were getting miracles ran back into the market to tell others we were not like the others. That we were not asking for any money and REAL healings were happening. WOW.

- A woman for 7 years with severe stomach pain from ulcers and was INSTANTLY healed.
- A man for 2 years with heart and stomach pain was IMMEDIATELY healed after the prayer.
- A woman for 1 year with severe stomach pain. She was told by doctors she would have to live with it but immediately after the prayer, she was healed.
- A man for 3 years with back problems and pain was Instantly healed.
- A woman for 1 year with ear pain and bad hearing, instantly healed.
- A man for 2 years with severe stomach pain miraculously healed today.
- A man for 4 years with bad stomach problems was instantly healed.
- A man for 3 years had constant fever and body heat beyond what he could handle always sweated 100% of the day and night. Immediately upon the prayer the sweating stopped and was totally healed.

- A man 6 months bad back instantly healed.
- A woman 1 year severe pain in her bones all over her body and joint pains INSTANTLY healed.
- A man 5 years back pain healed instantly.
- A woman 6 months with severe tooth problems instantly healed.
- A woman for 30 years lived with severe headaches INSTANTLY healed. Oh, glory to God.
- A boy partially deaf, ears totally opened.
- A woman 4 years stomach problems, Instantly healed.
- A woman 2 years stomach pain, Instantly healed.
- A woman for 7 years had pain in her neck everyday, Instantly healed.
- A woman for 5 years healed in her stomach and pain in her bones totally healed.

**Gene:**

Today we visited Rev Kettor's orphanage and spent time with the pastors and children walking thru the complex and seeing the great need that laid before them. Many of these children are orphans because of the war that was fought in this nation for many years. The children just latched on to us and soaked up the love of Jesus and we soaked up their love in return. Rev Kettor was given 30 acres by a Muslim family in town because of his dedication and love for these children. This Muslim man was very touched by a change in the young children's lives and honored Rev Kettor's work in the Lord. Some other American religion offered this Muslim man \$5000 cash for this property but the man turned him down and said "where were you in the war when these children really needed you and the people, Rev Kettor risked his life, year after year, to see to it that these people and children had their needs met, so he deserves the property!" So, now Rev Kettor is trying to develop what we are seeing to be a Christian Life Center, planted in a heavy populated Muslim market place. After we toured the orphanage, we then went to the Muslim Market called Gba Town Market. Rev Kettor's worship team was there waiting for us and lifting up high praise to the Lord. We worshipped for 30 minutes or so dancing with the people and forming a big circle with the children, dancing and singing.

The market place attention was being drawn to this area, people started gathering together. They were very curious to see what was going to happen next. P Lance brought a brief message about the Lord Jesus and His desire for the people and went right into words of knowledge. People not only came for the word spoke but were hungry for a touch from God.

I prayed for one Muslim man that was dressed in his religious garb. He was not holding back one bit and therefore not only was his condition healed, but he also received The Lord. He had problems with his eyesight, pains in his hips and legs. When we were done praying and receiving the Lord, we both jumped up and down and danced, then he thanked me very much, in Jesus Name.

Many ladies needed prayer for stomach problems, barrenness, broken hearts and touched each one of them in a special way. They couldn't wait to go home and make babies. I had one specific lady whose husband left her many years ago, he was a white man. She just looked at me with a big smile and said "I can't hear out of my ears!" and she could barely speak. I asked if she was a Christian and she said yes, but loved the Lord but didn't know what happened many years ago to cause this condition. I led her in prayer to forgive her husband, put him in the Lord's hands to bless him and as I was praying for her, I saw electricity in her eyes, they were flickering up and down and her hands were on her ears. I came against the spirit of fear and the trauma of her husband leaving her, took back the ground the enemy stole from her and bound the deaf and dumb spirit, commanded her loosed in Jesus Name and one of her ears immediately opened! She had a big smile on her face and she was able to talk a lot clearer to her friend that was interpreting to her. We continued to pray and released the finished work of Jesus into her life. After she could hear me, I explained to her how to get herself free. She left very happy and thankful.

So many people were healed, so many touched, many different problems, confusion, headaches, all set free and healed in Jesus Name. Leg pain, Back pain, stomach pain. One fellow was an alcoholic and God touched him. He was very moved with the love of Jesus and saw his need for deliverance. We led him in prayer and he got delivered.

This particular village market place had thousands of orphan children due to the 15 year war which ravished the land. They just hang out and live there where ever they can find cover. Rev Kettor's orphanage, when funded properly, will be able to provide all the necessities for these children together with a Christian education and with the potential to change this nation for Christ.

Living for Jesus International Ministries will believe God for such a powerful increase. The resources and the provision to meet this need with over abundance, In Jesus Name!! AMEN

### **Casey:**

Today we traveled about 45 minutes to get to this Muslim market that was in a village that was almost totally Muslim. When we arrived they were having some trouble setting up the spot where we were going to be ministering. So they brought us to a school that Rev. Kettor built. The school is only for kindergarten level because they have no money to pay the teachers, but the school was built for all grades and is very big. The school is now also an orphanage as well. Most of the children are from the war that was here and this village was hit hard. The children have so very little, but all of the children were happy and really loved all the attention we gave them. I think we were there about an hour or so, but time well spent.

When we went into the market we had a spot in the very back somewhere close to the seafood section. The worship team had already cranked up so we hit the dirt running. We all danced with the children and a few of the locals while everyone else watched on. We didn't care we were kicking up some dust. Lance gave the message this afternoon and he did an awesome job. Hey Lance you're in Africa. When he finished he called us up to give out some words of knowledge. After a few words were given and the healing had begun the crowd started to come in waves. The crowd never really grew that big, but the flow of people stayed constant. It was like as soon as some on got healed they would return back into the market and bring us someone else to pray for. Then that person would go and do the same thing. Just when it looked like we were done we would get hit with another wave of people needing prayer. This again was one of those days when it's hard to remember who all I prayed for. I teamed up with one

of the local pastors so I had him do a lot of praying. At first we had to pray several times but by the end the healings were instantly. We prayed for a bunch of stomach pain and body pain and all of them were healed. We saw deaf ears open and the blind see. After several hours it was time to head back to camp. As I was heading to the truck a lady grabbed my arm and said please pray for me I am very sick. You know how can you say no? So I prayed for her and instantly God touched her and she said the sickness left her and oh this is my son. He needs prayer too. Her son was around twenty or so and as crowd began to press in again everyone else was already in the truck waiting on me. I thought OK one more how can I pray for you I asked. No answer so I asked again and his mother said he can't speak and has never spoken. Oh OK so I took the authority and spoke sound into his voice box and within seconds he started to speak for the first time and his first word was Jesus. This young man was so excited to hear his own voice he started to talk up a storm not having a clue what he was saying. The look on everyone's face was priceless. At this time I was being hand delivered to the truck Ha Ha what a day. Thanks again to everyone for praying for us. BLESSINGS

**Lance:**

We went to another Muslim village about 30 miles from where we are staying. We first went to the orphanage. This orphanage is on 30 acres. They have a small school house, which is currently being used as a house for the children. There is also a small clinic but has no medicine. They are currently building a small house for the children. The children were wonderful. They melted my heart!! These children need so much. They have very little food if any. Only what they can buy that day. They have no running water. The well is broken so they drink out of the river. They have no beds, they sleep on the concrete floor or wooden benches in the school house. Under all these hardships these children are being shown the love of Jesus by two pastors that have sacrificed their lives for them. They live with them and teach them. The children know Jesus and are happy. Their smiles warmed my heart. I did not want to leave them. I was truly humbled by the pastors and their sacrifice. We then went to the local market. The praise and worship was started and we began to dance and sing and worship with the people. These people were a little leery of us at first. After the praise and worship pastor Tony gave me the opportunity to preach to the crowd. I gave a short message on God and His love and power. I then asked for people that needed prayer. Before long we had about 100 people or so that needed prayer. We started praying and they just kept coming. As the people started seeing the power of God in their midst they all wanted it!! We prayed for the people for a couple of hours straight. God healed the people of all types of things today. One lady I prayed for was deaf for years in one ear. God opened her ear and she praised the name Jesus! We had many people with stomach and back pain that were instantly healed. We were told that this village was mostly Muslim. Not after today!! Word spread and the people kept coming. **Many people received salvation and were added to the kingdom today!** To God goes the glory. Thank you for your prayers...
