

Mission to Africa Outreach #7 February 9, 2011 Williams Community, Bomi County

Tony:

We are so grateful for all prayers. History is being made and eternity has recorded these God events.

Having the daytime free today we walked the village and they took us to Blue Lake. The people of the village are so friendly towards us and know us as the men God sent. As we walk the street a voice calls out, "please come, please come!" A woman runs out of a shop and says "come pray for us!" Two women, new born Christians from the current move of God. One has pain all over her body and the other has heart aches (physically felt) from worry and anxiety in her life. The first woman rejoiced as all the pain instantly left her body and the second we led thru deliverance and she was completely freed and heart restored. Oh, all of our walks around town should be like this.

The sun sets and now it is time for the outreach. In this part of the world, unless we go to the market or just walk the streets, the Muslim's don't want to come out to the outreaches unless it is late and definitely DARK. Tonight we are going to the Pastor's village that was beaten this last week by militant Muslims. We found out that Pastor Fatu Massalay was physically attacked AGAIN yesterday and left for dead on the ground, the second time. This time she said to God "I have been imparted to and I have authority and power over the damage that has been done to my body" so she prayed for herself and was instantly healed. AGAIN THE CUTS AND BRUISES LEFT HER BODY INSTANTLY AND SHE GOT UP WELL! Wow, what an awesome miracle! We arrived and praise was underway, the praise team had it ramped up pretty good. The pastors were there waiting for us, excited about how God would use them tonight. We weren't aware of the attacks that had already come. As I was dancing thru the crowd a number of times Muslim men tried to knock me down, but each time "someone" pushed them away. It wasn't registering to me at the time what was happening but the angels around me were pushing back the demons.

After seeing what happened last night, we thought, how could it get better than that! Well here we go: Gene brought an Apolostolic exhortation declaring the authority and power of this Lady Pastor over the powers of darkness that have come against her and a dismantling of the powers of darkness. I believe Holy Spirit showed me the men that beat the pastor standing in the back of the crowd during praise and worship. As I danced by them with many children around me, these men were mocking Our God. Their demons were called out and caused their hosts to run for their lives. And then, declared that sickness will be driven out by the power of God for all that come.

How many years I have been out here for the Lord and how many times I cannot find the words to express what I have experienced. We gave words of knowledge andthen I found myself in a place in the Spirit I have never been before. It was HOLY, It was so HOLY.....I wasn't sure if I was in the body or out, but it was like.....Oh God, help me explain. Throughout the night I asked "give me understanding of what you allowed me to step into Lord"it yet has not come. I stepped thru a door in the Spirit and I literally felt like my words were spirit and life, like creative power was being released with each word, but at the same time they were not my words, but it was literally HIS WORDS. Not that my brain was disengaged, but definitely my spirit was the primary organ in operation. I absolutely knew and could see the healing power of God flowing into the people.

First, we give glory to God for all the Muslims that **AGAIN CAME INTO THE KINGDOM OF GOD. WE ARE INTO THE THOUSANDS NOW ON THIS MISSION. ALL GLORY TO GOD!!!!**

Second: the ministry time was HOLY, did I say that again? It was HOLY. A lady pointing to another lady and her daughter standing in front of her and said "both the mother and daughter are BOTH Deaf Mutes. I first spoke to the deaf mute spirit in the young girl, and instantly her ears were opened and she was talking to her mother. Tears of joy flowed from momma. Then I turned to momma and in The Name of Jesus in a split second she was hearing and talking perfectly. Both momma and daughter embraced each other and Jesus with the gift He had given them.

I felt the desperation of the people as they pressed in hard, each vying for position to be next to be touched. Fast deliverances from all manner of oppression including woman being sexually terrorized at night by demons, tormenting demons, spirits of confusion and despair. All manner of sickness I just watched flee. Maybe 50 miracles I witnessed in 30 minutes.

Only once the entire time did I feel that my mind was attempting to use its own understanding. I felt I was being lifted out of that deep place in the spirit just for a moment. A totally blind girl that only saw darkness, this is the only person I had to pray more than once. Then as soon as I knew that her Christian mother was to finish the praying for the completion of her eyesight and I turned her over, Bam, I was back in the deep place in the Spirit. More Lord!

A man said "I have a hydroseal and am all blown up in my private parts with much pain!" He put his hand in his pants to see what God was going to do and in a matter of seconds said "It is totally gone, I am normal again, Praise God!"

Rev Kettor:

Before we took off yesterday we had another attack ahead of us. The instruments again would not operate as the powers of hell tried their best to stop us. After the instruments went off we prayed and prayed and then victory, they came on! When the praisers began to give their praisers, a lady walked straight out of the crowd toward them, she was demon possessed and was frustrated spiritually so tried to come and attack physically. All the pastors ran to assist and we stopped this demon possessed lady and shut down the dark power. Then another lady came and said "No one can bring this kind of program to this place. We are a Muslim community and you cannot come here." She kept saying "you better pray for your people, you will not make it thru this night. Allah rules!"

I told her "tonight you will see Who the True God is. You will see that Allah is not God, you will see and know that Jesus is God!" This lady was in serious pain from stomach ailments. When she saw the miracles that were happening she decided to come up and see what this is all about. She asked for prayer for her sickness to go, she was instantly healed and then asked "Who is God? Allah or Jesus?" She said "tonight I see, Jesus is God!"

The little children. When you see lots of children come around you, it is a sign of Jesus in the house. Tonight many of little children came around the team. The children said that in this village they go to school but none of them can understand the lessons. It is not that they are stupid. It is DEMONIC. We prayed for a breaking off of the dark powers. They all confessed Jesus as Lord and Savior and a release of wisdom and knowledge from God. We assured them that from this night their minds would be restored. Freedom in this village.

At the end of the service a lady came and said there is a paralyzed man that cannot get out of his bed. We told her to get men together and carry him to the outreach tomorrow.

Here is a summary of some of the testimonies from the pastors praying tonight:

Gene:

As soon as Pastor Tony who wants to take the night of ministering in this lady pastor's village I went into a trance and I began to see what God wanted to do. And Holy Spirit convinced me that I could do it with what He has put in me. The village has been under the dominion of the devil up until now. Even before the pastor conference started she was ready to give up. P Tony had called her out in the conference to be refreshed and renewed with God knowing she was ready to give up. Thru the teams encouragement and impartation she rose out of the ashes. Now she sees herself the way Jesus sees her. She is bold to

stand in the face of adversity and see her mission thru in Jesus Name. We were not even scheduled to go there but it was in the heart of God to go there and break the enemies strongholds.

God showed me throughout the day what His desire and strategy was to cause heavens invasion in that village. Muslim people tried to stop the meeting before it even took place but the Liberian pastors stood firm and prayed thru to hold off the enemies attack. We came in there with praise and worship. And even in that high praise and worship we felt the enemies resistance.

God showed us that we had an apolostolic anointing over that area. Before all the people we (Rev Kettor and our USA team) laid hands on pastor Fatu and blessed her and commissioned her. Glory to God, it was powerful!

After the message right into words of knowledge, many came. One of the pastors spoke that it would be a night for the healings to be "INSTANTLY INSTANT" As you can read in the reports, the anointing for healing was phenomenal. People were healed from years and years of disease. People manifesting demons as they are getting free. Children in a confused state being set free. One man that was one of the church elders, hurt his shoulder a number of years ago and could not lift it beyond half way. I felt it and his arm was like frozen in a 90 degree angle. Holy Spirit said speak healing over him and tell him to lift his arm all the way up. Sure enough, I grabbed his arm and lifted it over his head and sure enough the miracle happened and he had total range of movement. One young boy was blind in his left eye and was instantly healed.

This place had a visitation from heaven that will preserve it to demonstrate the power of the gospel until Jesus returns!!!! The Liberian pastors are so overwhelmed by the Presence and Power of God and they are so grateful that their nation is being changed by the glory of God!!

Casey:

OK each night here is getting better and the anointing level is growing as well. The outreach tonight was in a village where the female pastor I have been praying with lives. This is a very strong Muslim area and they do not like what she is doing there. Too bad for them, because our God is way bigger. She has even been beaten by the Muslim men there because she is a pastor and they were trying to get rid of her. After tonight, I don't think that is going to be an issue any more. Gene gave an awesome message and spoke life into this woman pastor and spoke against any attack against her. He said so much and it was so powerful and the Muslim men that attacked her, that were in the back, packed up and left. Their demons didn't like what was being proclaimed over her and her church. This village was on top of a hill where her church was a city on a hill with their light to shine for everyone to see from now on. Gene had Rev. Kettor and the team pray over her and anoint her in front of the whole village so they now knew she was the pastor and a mighty woman of God. It was real neat how everyone cheered for her and she was restored at that very moment. Wow, it was big what God did.

A bunch of words were given out for healing and we got right into it once again. I had the privilege of praying with that woman pastor again tonight. I know this is not the way you spell her name, but I'll try it's Fa`too. Anyways we started our evening by praying for this teenage girl with stomach pain. A couple seconds later and she was healed. We prayed for two women that had the same foot pain. They both had heel spurs and it was very painful to walk. Within seconds after prayer they both were smashing their heels on the rocks with no pain. They were very excited and I think a bit shocked too. The next woman we prayed for was a Muslim woman deaf in one ear. I stuck my finger into her ear and said in

the name of Jesus and bam she could hear. Just like that she walked off with this look on her face like how am I going to explain this one to my husband. I was healed in the name of Jesus. An older woman moving real slow, you could see the pain she was in with every step toward us. We asked what was wrong and she said she had typhoid fever. Short prayer and she was jumping up and down praising God for her healing. When the crowd was almost done being prayed for, Fa`too took my hand and took me to go pray for this lady that was unable to come to us for prayer. So we went to her. She was totally deaf and to top it off she had a stroke and couldn't walk. We prayed for the ears first and they popped open right away. Then we prayed against the stroke and her body began to twitch real hard. Her hand and foot was shaking and we said walk in the name of Jesus. We walked with this woman all around the outreach ground as she was getting stronger with each step. It is so cool to watch stroke victims get their life back, way cool. Tonight was incredible we even prayed for six deaf persons in a row and all of them hear now instantly. Thank you for praying for us. Blessings

Lance:

Praise God!!! What a wonderful night! We went to another Muslim dominated village. We started with praise and worship. It was incredible. I could sense evil in the air. I pressed in and moved through the crowd to the very back. When I got back there I felt the evil was strong. I praised the name of Jesus and danced with a little girl. I just kept praising His name. Then a group of men came near me and started mocking me. One guy was dancing close to me and kept jeering me. Then they formed a circle around me and started mocking and calling me names. They were making fun of Jesus. I prayed that God touch them and thanked Him for allowing me to be there. The ring leader tried to knock me over and ran into my shoulder. The second time he tried this I sensed him coming from behind me and I stepped to the side and held up my arm. He ran right into my arm and landed flat on his back. His hat fell off. I just smiled and continued dancing with the little girl. These men left me alone after that. Praise God!!

The praise ended and Gene gave a powerful message. He called for repentance and he claimed this territory for Jesus. We then prayed for the local woman pastor and imparted all that we had to her. We then praised God and began calling for people that were sick to be prayed for. Again hundreds of people came forward for prayer. So many people, so many healings and miracles. The first person that came to me was a blind woman. Pastor Clement told me she was blind in both eyes. I prayed for her and she opened her eyes. A huge smile came across her face. She started crying and laughing. She was healed and could see. I hugged her and thanked God. I prayed for a young child with malaria. He had severe headaches and was very sick. His mother watched intently as I prayed for this child. I held the boys head in my hands and commanded the sickness and pain to leave the child. I felt and saw a transformation in the child as I prayed. I knew that he was healed. He smiled at me. It was a connection of victory with him in the Spirit. To God goes the glory!! His mother spoke to him and he said he felt great. She immediately asked me to pray for all of her children which I did. I blessed the family in Jesus name. A young man came forward with severe pain in his left knee. It had been there for years. I got down on my knees and prayed. God healed his knee instantly!! Another woman came forward with severe stomach pain and back pain. I prayed for her and she was healed. She was stunned!!! I told her that Jesus healed her. She held her hands to heaven and praised His name. The blind eyes were opened, the deaf began to here, and the lame walked. All in the name of Jesus! That land was taken back tonight for the kingdom of heaven!! So many people were converted. It was a glorious sight. What started out as a Muslim stronghold is now praising the name of Jesus!!

I had a dream last night. I was living in a neighborhood inside a city. I was on a corner house. We were attacked by evil men. They took my friends son. 2 of the men came back and attacked us again. I

fought with one of them and wrestled him to the ground. His jacket came off in my hands and he ran away. Inside his jacket was his wallet. I opened his wallet and he had a lot of money. I also noticed his ID cards. One was a Military ID. I found his location in the city and we went after them. We went to a bar inside the city and kicked the doors in. All the people were afraid and just stood still. We went behind the bar to the back and my friends son was being held. He was tied up and they were beating him. We just went in and took him from his captors and freed him. I believe this dream was a prophetic sign of what is taking place in Liberia right now. We are marching into the enemies camp and taking back God's children!!
