

Mission to the Philippines

Assembly of Praise

Midsayap, North Cotabato

Friday, September 16, 2011

Tony:

First thought you might like to know some of the food items they intend to give us to ingest. 1. Lizard (various different kinds they said), 2. Snake cooked Adobo style, 3. Balot. Premature duck eggs that are cooked like hard boiled eggs . Yippee!

OK, we'll go Lord. To the ends of the earth You say? Amazing how people on the other side of the earth from where we live cry out to God to Know Him and the Power of His Resurrection and God hears their cry and sends US. His ways are truly not our ways. So, we are met by a people that are hungry, so hungry. Hungry for the reality and tangibility of God and His world.

They are on the edge of their seats pulling the anointing from us, hanging on every word. The look of amazement and awe on their faces at how This God of Grace could have so much for them. Two sessions today, we got the people praying pretty fast so my personal testimonies of those I prayed for are only about 20 for the day, here are a few.

A word of knowledge rose up in me as we were approaching demonstration time so I let it loose. It was for a heart condition that was producing pressure and pain in the chest. A man came forward. I found out later that he was the Mayor of the village we are in. He had been praying that God would heal him. As we began, all watched as we proceeded with following Holy Spirit's lead in prayer. The man had been 2 years unable to function normally due to his heart. As we began to pray, he jolted, as if he had put his finger in an electrical outlet for a brief moment. A huge smile came over his face and he said "I am healed!" I asked what had just happened to him. He said something like electrical power entered his left hand and went up his arm and into his heart. He then felt like a surge of "strength or life" flow into his heart and all the pressure and pain was instantly gone. He was real excited to tell everyone what God had just done for him. Now this man wouldn't go back and sit down, he stood right up there with us watching all the prayer that happened after that like he was a reporter checking out a story.

A woman that was mostly blind in both eyes and was told she had severe glaucoma and needed surgery came for prayer. The first prayer saw the anointing open her left eye. She could see clearly and was praising God. We prayed again and then her right eye opened. She lit up like a roman candle, she was so happy. She said "I do not need to have surgery for my eyes, God has totally healed me, thank You Jesus!" She said, "I knew that this was a Divine appointment with My Lord today!"

A woman that had a large goiter came and felt the power of God shrink that baby down until she knew she had been healed.

A Pastor came with his left hand in a semi-closed crippling position, unable to move or bend it. Also severe pain and crippling in his left leg and left shoulder unable to lift his left arm. It looked like the results of a stroke. For two years those parts of his body were numb and with movement or feeling. We had just begun to pray and BAM he shot his arm into the air and was opening and closing his left hand and kicking his left leg, dancing with excitement.

At the second session we came to the point I could see the atmosphere just full of faith. We called out some of the sick and infirm and then asked who wanted to do the praying. Many people came up and we didn't know how many were there to pray or be prayed for. We just turned them loose. Well, there were so many people praying that Casey and I only personally prayed for a few, but rather helped others. I had two pastor ladies, one needing prayer and the other to pray. The lady needing prayer said "I want Tony to pray for me!" I told them that it was Jesus, not me and to watch and see what He was going to do. She said "OK, we will see!" Well the pastor lady doing the praying couldn't wait to get started. She asked what the problem was. Here was the answer. "I have a heart condition and my heart beats were fast and pains me, I have a tumor, a large growth on my stomach and problems with my back that pain me all the time!" I directed the prayer to start on the back. After two rounds of prayer and the pain moving around a little, this pastor lady was set free of that problem. All of a sudden she realized that it wasn't me praying. She was then excited to have the other pastor woman pray for her tumor on her stomach. Wow, here we go. The lady doing the praying said "I feel such power going thru my hand right now into this tumor, Oh God!" 15 seconds and there goes the tumor, shrinking, shrinking, gone!! Now we have two extremely happy ladies. The pastor praying was so excited to the first time in her life Feel the Tangible Anointing flowing thru her hands and of course the pastor lady that just felt that power make the tumor on her belly disappear right under her hand. By the way, all her stuff got fixed. All Glory to God!

How about the epileptic young man that for 7 years has been suffering with that debilitating disease. His father was with him and said that his son has had no memory and unable to remember anything since the epilepsy started. When we asked him what he was feeling, he said "I know that I am healed because I have had a numbness over my head and mind as if I was not myself for many years, all the time. But JUST NOW, that numbness has left me and I feel my mind clear and thoughts are now my thoughts, I know that I am healed!! What just happened was the epileptic spirit has just left him! Glory to God!

An older pastor man came and said he had to wear glasses to see anything his eyes were so bad. Another pastor with him said "Oh, it is just your age, when we get older we all have to wear glasses, you don't need prayer!" Wow, wait a minute. It doesn't matter that I wear

glasses, that fact is God is still in the healing business and I am not going to let any natural thinking take me off of kingdom thinking. We prayed and in an instant he said "Oh my God, I can see perfectly clear!!"

Last testimony for the day is a little old lady pastor that had an abdominal tumor. After two rounds of prayer it was so cool to watch her poke all over her abdomen to try to find where the tumor was. It was totally gone. I love to watch folks try to find the dissolved tumor. Thank you Jesus!!

Casey:

After three days of travel we are finally here and eager to get into ministry knowing that our time here will be short. I forgot just how wonderful the people treat us here and just how welcome they make us feel. We are in a village at the base of the mountains for a few days before we trek upward into the mountain villages. That should be fun from what they are telling us, but we will also be roughing it. Like that is going to bother us.

Today was our first day of the three day conference and they have us doing two sessions a day. The teachings were real good and the people really seemed to enjoy the sessions. After each session we took the opportunity to pray for who ever needed prayer. The first woman I prayed for was in pain from stage three cervical cancer. As I was praying for her she said a peace came over her and then like cool water was being poured all over her body. She said it started from her head went all the way down to her toes. When I finished praying for her she said all the pain she was having is now gone and it felt like something left her body. The second person I prayed for was the same girl we prayed for a year ago on our first trip. She needed prayer for her fingers because they still weren't working properly. I spent the rest of the morning praying with her for her hands. By the time we were done her fingers were freed up and were showing signs of movement. She had the biggest smile on her face the whole time we prayed for her. What a sweet young lady she was, oh yeah and all the pain she was in when we started was now all gone. Praise God.

After lunch we started the second session and Tony taught on faith. The session started at one and went until three or so. When he was finished he called for anyone that needed prayer to come, then he asked for anyone that wanted to pray to come. It looked like we had more people to pray than those were sick. Now that's a good problem to have. Again I only got to pray for two people before it was all over. The first man had a tumor on his left hip that caused him a bunch of pain. After prayer the pain began to move down his leg so we kept after it until the pain came out of his foot. The tumor was still there but it was soft and squishy now whereas before it was as hard as a rock. The afternoon finished with a huge bonus for us. A woman and a group of young teens that she had brought to the conference came to us asking

for impartation. They live five hours away up on the top of a mountain and have to leave early so they wanted the impartation now. They all were so hungry for more of God and soaked up everything we prayed over them. All of them ended up on the ground under the power of God. Wow what a way to finish off a day. I can't wait to see how God is going to use this group. Thanks to everyone praying for us, blessings. Later

Elmerson:

Friday, on the first day, in the morning, I am so excited to see what the Lord will manifest during the training. The servants of God Pastor Tony and Brother Casey standing in front during the praise and worship and waving hands and dancing to Jesus (in the Spirit). Pastor Tony started the teaching of Healing and principles and the miracles. Many times miracles happen when the believers go out and pray for the lost people of their sickness and diseases. Healing is promised by God to believers. Most of the attendees are Christians, mostly Pastors and church leaders. After Pastor Tony emphasized the purpose of Healing and Miracles the Pastors were telling me that this is the kind of teaching they want to know about miracle healings. They said, we thank you Brother Elmerson that they came.

When Pastor Tony started to pray and called out people to come in front with words of knowledge there was one woman complaining about the pain inside toward her belly and told us that there something tumor inside and she feels that since childhood, when we prayed this woman said pain still there little bit, so we prayed again, in the 3rd time the woman said that it still there, I supposed to let her take a seat, and come back in front later and we'll pray for her again, Pastor Tony, says no... pray again, and together him we prayed the woman and then we checked telling the woman what you feel now? She was pushing her belly trying to check and pain and pressing it and she said ...no more pain, the growth it is gone. Indeed it is so amazing this woman has been troubling this pain since childhood now God manifested His healing. Praise His Name! I told her praise God. Say thank you Jesus. And, the people started to come for prayer and healings coming to them like a river and God blessed them.

Afternoon, Pastor Tony opened the session with a prayer. He was teaching about faith how it spelled out and all of the people do not know how to spell it out, that the way to spell it is RISK and people writing it down. Now their minds and their religious understanding doing miracle healings now transform into the mind of God. That God wants His children to risk faith to go to people who need help, that instead of coming to distinct person who has the anointing, but every believer can have the anointing if he is willing to use the anointing touching the lives of people for their need of salvation. The anointing and power can come to believers and command and casting all sickness to leave the body. Then, Pastor Tony encouraged the attendees to volunteer themselves to pray for someone who came in front and who needs healing and they prayed. One lady from Malita, Davao del Sur from my hometown, complaining that she has pain in the left side of her body pointing at the back, somebody from the pews came and prayed her lays hands on her. And only one prayer the pain is gone. Praise Jesus. I noticed the attendees who prayed become more excited to pray for someone. A man with

blurred eye said acquired since birth who came to us can now see clear to the people around him, and the next who came in front is the mother complaining for eye problem and she told us that it is an eye disorder. And, the mother was saying that there something in her eyes like a smoke or it is cloudy inside. We prayed her and she was checking it out and told us that the cloud is no more in her eye. Healing miracle! Amen Lord! The Lord touches started in the left eye and the second time of prayer the right eye now becoming clear to see. She said thank you Jesus ... This is amazing.
