**Tony:**

Thanks to all for praying. Another wonderful day in the Lord today. We started with breakfast, kinda western style, egg omelet with some kind(?) of meat in it, toast and hash(?) and Phillipino coffee, so good. Sunday morning church service had absolutely awesome worship. The Presence of God was so rich and then Casey just enjoying himself, being himself and everybody just relaxing in how God made them. This was clearly a depressurization message, kinda like getting a massage. I then stepped into the offering bucket and spent the rest of the morning on my face basking in The Lord. It was sooo good.

Not a morning that we were led into healing prayer, but there are always a few that just press in for prayer no matter what is going on. One lady, not saved, was sister of one of the church ladies and had never been to church before. Her sister told her of the miracles that were happening and said "sis, this might be a good time for you to come to our church service and bring your sickness with you!" So, she did. She stood there in front of me shaking with fear over the whole thought of being in this place and some strange white guy put his hand on her and who knows whatever else might be happening. I saw it and attempted to calm her in anticipation of being touched by The Lord. Don't think she bought it, but she let me put my hand on her and pray. She had diabetes and a goiter on her neck. I asked her to put her hand on the goiter so that she could feel it under her fingers and to watch what Jesus does to it. She apparently also was ready for an insulin shot as her body was (right now) feeling the effects of super high blood sugar. Well, we started praying and she started shaking again, only this time the shaking was not fear but the power of God. She said, "oh my God, the goiter is gone!!" OK, now we're cookin, let's go after that diabetes! In a few moments of prayer all the diabetic symptoms left her body. She said "I can't explain what I am feeling, it is just so wonderful and I KNOW that I am healed!" We told her she was feeling the Presence of Jesus, her healer. She acknowledged Him as her Lord and Savior! Nice first trip to church, eh!

Second lady said that she suffers daily with migraine headaches. She just couldn't stand it. She was a Christian but said that she was a backslider and had turned away from God and church, but heard Jesus had come to church and was healing people and setting them free. So she determined to come today to see if this was true. We prayed and instantly the migraine was gone. We asked her what happened and she said it was like she put her hand in an electrical socket and the electricity ran up her arm right into her head and the migraine was gone. She had an encounter with Jesus today and came back into His arms and "returned home to her church family!"

Afternoon impartation service began with tremendous worship again, then some testimonies of how people have been touched and changed thru the conference then into impartation. A few of the pastors said:

- “This is the first time ever we have seen this kind of prayer training in the Philippines. We are now equipped to give to our church people the training to carry out the great commission....”
- “This is the most important training we have ever received, our ministries will never be the same...”
- “I had been crying out to the Lord to give me anointing to truly do the works of Jesus. God spoke to me and said it will happen shortly, then I heard about this conference and knew this would it be it, and it was, hallelujah!!”
- “I had been taught as a young pastor to push people over and to get mad and yell at demons...all these years I have been ministering as a pastor in the flesh and didn’t even know it. I have been set free, I have the real Anointing now and I will set my people free and send them out to destroy the works of the devil wherever they go....”
- “I now understand how the Holy Spirit has been trying to speak to me but I didn’t recognize His voice. Now I know His voice, it has become so clear these days. I am so grateful!”
- “Now I understand “not by my power, not by my might, but by The Spirit” that is how it is going to happen. Not from my striving or trying or my good works but by my trusting and watching Him work thru me. This is so glorious!”
- “I am humbling myself to stand before all of you. I am a pastor that has been BACKSLIDDEN for many years. I am embarrassed to say that. I have been going thru the motions of ministry with no evidence of God power, just the result of my own power. I have been restored these days, I have been empowered by The Spirit these days. Ministry will no longer be in my strength. I will teach my people how to move with Holy Spirit and how to pray for the sick and bring great glory to Our Lord.....”
- “I have been revitalized, I have been empowered, I have been relieved to know how the Holy Spirit will give His gifts to me as I step out for Him and he will do the same for all believers. I have for the first time seen the real power of God flow thru my hands. I did not recognize the counterfeit I had been using until now that I have seen the REAL Power....”

The impartation service: It was a number of hours of non-stop laying hands on every person (hundreds of people). This is always such a privilege for me. The words of encouragement, the words of calling out their destiny, the words of releasing gifting, the words of impartation of the Anointing....Oh God, what a privilege! We are learning to be able to tell when the “Anointing Transfer” is happening and when there is resistance for whatever reason and it was just

happening for all! It was as if a water main from heaven was opened up and we were just part of the piping system feeling the living water rushing thru us. 98% of the people were overcome with His Presence and Power and fell to the floor, many for the first time ever, experiencing The Spirit this way. Typically, they would be vibrating or shaking somewhat from the heaviness of His Glory and as words came forth that they knew were from God they would begin to weep. Then shortly after that they would just be overcome and lose strength in their legs and fall. If we hadn't completed the release or words God was giving us for them we would follow them to the floor to complete the impartation.

We started shortly after lunch and when we ended it was nighttime. They took us out for late dinner to a restaurant. It cost something like \$1.80 American each. We had such good food as squid and tentacles and this is a new one: "cooked beef blood and various unknown beef parts".

### **Casey:**

Wow what a long day we had today, but it sure was a good one. It all started with a great cup of kicking coffee (yum) and some breakfast. Then it was off to the church to finish the conference, but first we had the Sunday morning service to do. They asked if I would do the preaching this morning, but somehow I already knew this was going to happen. Again the worship was amazing they are so good it is easy to get lost in worship here. I wish somehow I could bring them all home for all of you to enjoy too. I told them if they every make a cd I wanted to be one of the first ones to get one 😊. When it was time for me to get up and speak I just gave them a simple message on little ole me. I think it went ok well they didn't toss me out on the street. I also shared about Sara (bucket girl) and how God blasted her when she stood in the offering bucket on another mission trip. Then I told them that we were going to take a special offering this morning and I brought out a wash tub for them to stand in and offer themselves fully to God. The look on their faces was total shock much like Sara when I told her to go stand in the offering. I had the worship team come back up and play as the people came to stand in the offering tub. No one was moving very fast so Tony and I went first so they could see what I was talking about. Not long after that they started to come and one by one God was really touching everyone that chose to step into the offering tub. It truly was a God movement this morning and He was doing so much. You could see those who wanted to come stand in the tub but didn't because they just couldn't humble themselves enough. They really missed out. It was funny while we were eating lunch those who stepped into the offering tub they all were laughing saying we just stood in a tub and encountered God in a way we have never felt before. God is Good.

For the afternoon session we were having an impartation service yeehaw. It is always so hard to write about what happens during this time. God pours out so much during this time words

don't do it justice. All I know is how I felt. The Philippine people are very passionate and gentle people so that makes them a soft touch for God. If we could all be like this... wow. Every person I prayed for was crying, shaking, vibrating, or being overcome by the Holy Spirit. We prayed for every person that was there and that took a few hours but it sure was worth it. It was so much fun working with the Holy Spirit and speaking over and into these people. They will never be the same.

Thanks again to everyone praying for us. Blessings 😊 later.

### **Elmerson:**

Morning Service at Assembly of Praise Church where the seminar is located. Teacher Casey is the one led by God to do the preaching and teaching and he was using the text in Corinthians about the offering that God really wants is to offer ourselves. In his teaching the Lord gave to him the message that to really experience the offering of one's life to the Lord by entering the offering bucket. He was telling the crowd of his early ministry when during one of his mission trips he attended the meeting service and saw a lady was crying because when the offering plate passed unto her, she has nothing to give to God. And he said he approached the lady because the Lord gave him a message to tell her "you think you have nothing to give, but you do, give your life to God and get inside the bucket!" The text of 1 Cor. 1:26 to 27 For you see your calling, brothers, that not many wise men according to the flesh *are called*, not many mighty, not many noble. But God has chosen the foolish things of the world to confound the wise; and God has chosen the weak things of the world to confound the things which are mighty; it indeed amazed me when Brother Casey applied this to the lady. And then the lady after she did entering into the offering bucket was never been the same person, now God is using her serving Lord. Also followed with the several youth he brought in one mission also God's message to do it again in one meeting and those who enter into the offering bucket now serving the Lord some of them now a pastor, a preacher, teacher and some evangelist. I was just surprised as he continues to teach us that Sunday that the message of God will do the same right now this morning. And, I was one of the believers who was struck by the presence of God inside the offering bucket that Sunday service and was down as if I was floating in the hands of God embracing me with His arms wrapped around me, amen Lord. And one those who entered into the bucket and was struck was my wife Daisy. What a wonderful message I heard that morning from Brother Casey, breathed from God!

In the afternoon, during the impartation, I have faith that God moved the people forward as they understood the message of the highest calling of all to received from Pastor Tony and Brother Casey the impartation and even children ages from 9 to 13 got the impartation and many who came to received and committed their lives to do the same what they got from the Lord the authority and power to bless all people who need it. It was so powerful!!

One lady Pastor from Aracan Valley a 5 hour drive from the location of training, who, together with her youths had to leave yesterday after the morning teaching to go back home to themountains. So, yesterday they had Pastor Tony and Brother Casey impart them the Anointing and prophecy over them the call to use the authority and power. I received a call from the pastor up there on phone that her youth age 13 that got the impartation had just laid hands to one her elder sister who suffered pain inside the stomach and having a lost bowel movement with high fever. This young 13 year old girl said she would pray as she had the Anointing so she applied what she learned in the training and impartation touching the body of this very sick woman. There was instant relief and after several minutes after she prayed, according to the report of Pastor, the elder sister was completely healed and pain no more, vomiting stopped and fever no more, and this lady Pastor called me with joy thanking Pastor Tony and Casey for the impartation and teaching of the Kingdom ministry. Praise God! Their lives will never be the same again!
