Mission to Uganda

Buchimo Village

Pastor Tony:

Monday was travel day all day as we went to the Kenya border to drop off Bishop and Mrs. Choke and travel to the bush of Uganda for the last leg of the trip. Not realizing that we would momentarily crossing over the boarder that we might need our passports, we didn't bring them. The boarder guard made us pulls over and after a length conversation with Fredrick decided to detain Gary and I while the rest of the team went across the boarder. While we were being held at the boarder station, Holy Spirit melted the heart of the guards as we talked of the exploits of Jesus and an opportunity for more ministry opened up. God uses everything! We are in the bush and we had representatives from churches from maybe a 20 mile area. Their transportation is either foot or bicycle. The people seemed to soak up the teaching pretty good. After the first session we had three men in pain come up and three pastors do the praying. After many years of disabling sickness and pain these men gave testimony of receiving their miracle. That was the first shot at dismantling the skepticism among those in attendance. After having a wonderful lunch in a mud hut, then afternoon session moved into deliverance and we ended with them leading each other. At the end of the day a lady 20 years in sickness was healed. This day was a primer for Wednesday where Holy Spirit had much in store for us.

Wednesday, May 30, 2007:

I would like to see the recorded record of this day in heaven as our reporting can only begin to touch all that God did. As we began in the morning with teaching on the prophetic and words of knowledge, the people were continuously coming in, they kept coming all during the 3 hours session. I could tell that they were hearing what they had never heard before. As I was teaching, Fred (our camera man) was doing the interpreting. The anointing came quickly and I noticed something unusual. We have been having double translation, from English to Swahili to the native language of this bush area. It was important to get it right as the word for pastor in Swahili mean 'bachelor or single person' in the native language. What I didn't know was that there were no translators available to go from Swahili to native so Fred was elected as he came the closest with his Uganda dialect (although very different from this bush version). Fred said that he has always wanted to be an interpreter, but only told God. At this moment the gift of TONGUES

came upon him and as fast as I was speaking in English he was speaking perfectly in the native bush language. For a good part of it he was speaking simultaneously with me. He was receiving the same word, in a language he didn't know, at the same time I was getting it in English. **It has to be just like Pentecost.** When we prayed for those in attendance to enter into a prophetic experience and receive from the Lord, they did! There was so much activity and so much that wasn't being translated, I can only give you a fraction. I loved the looks on their faces when they found out how easy it was to receive, then couldn't wait to get started.

- A lady said she had received a vision of a man reading Philippians the second chapter in the morning before the conference and crying out to God to do something in his life. Then she heard God say He would as she prayed for him. Then she said that she saw the mans face in the vision. I asked her to look around and see if she saw him. She said, "Oh, yes, he is here!" **He was in shock as God revealed what he did in the morning.**
- One man said that he was taken into a trance and ushered into the spirit where he was shown (I assumed by an angel) a lengthy vision to be given to one of the pastors there. **The look on this mans face when he was sharing this was like he had just come off the mount of transfiguration.**
- One lady came to me at the start of the meeting today and said that she had remembered a dream last night (a new occurrence for her) and in the dream she was laying hands on sick people and they were getting healed. I told her that it would start today and I imparted the anointing to her. After praying for the activation today, while she was waiting to receive, she had a vision of a lady that was not a Christian that came to receive healing in her arm and leg. She spotted the lady and it was verified that she was the one. Gary will tell you the rest of this story as he worked with them for awhile.
- There were numerous words of knowledge for healing and all were healed.
- Many people came in as we had entered into the time of praying so they just started coming up for prayer. I prayed for a man for quite a while that had never tangibly been touched by Holy Spirit before. He stood there bobbing and weaving and trembling, like he was freezing; only he was boiling. I left him in His Presence.

The Pastor whose church we were in called me outside and said, “There are so many people that are just coming now, could we extend the conference and do more teaching?” I knew God had much bigger plans. I told him no, we would go to the center of the market of this village to have our first crusade after lunch.

We went to this wonderful ladies mud hut and had grilled whole tilapia and chicken and rice and other native stuff. The guys set up the sound system in the market and started playing cd’s while we were finishing up lunch (at 3pm). The people started coming.

Now, when we got here on Tuesday, the lady of the village hut we have been eating at gave us a prophetic word. She said, **“God has sent you here so that ALL the sick of this village will be healed and the lost saved!”** We were soon to find out how right on that word was.

As the praise & worship went on, we danced with the children and before long, from what I was told, the ENTIRE village came out. Maybe 300-400 people. The village mayor got up to the microphone and welcomed us into his village and thanked us for blessing the people. The people were already pressing in around those leading praise, so the local church folks got a rope and strung it out about 50ft. across the front to allow about 10 feet of clear area in the front. I was soon to find out how this would help.

During worship I received a vision and I saw a boda driver (bicycle taxi) falling off his bicycle and landing on his knee. After a short message challenging the people to come and be touched by Jesus the Savior, Jesus the healer, Jesus the deliverer I released that word and another and asked the team to come to give words. While the team was coming up the people started pressing in more. A young man came hobbling up and said “I am the boda driver and I fell off my bike this morning on my knee and it is really hurt and I must be able to ride to make a living!” After being assured he was already a child of God, my co-prayer partner (a pastor) and I laid our hands on him and **INSTANTLY he said, “I am healed!” and he started jumping on his leg.** There were people set up to bring the miracle recipients to the microphone to give testimony. As this young man broadcasted to the crowd what God had just done, that was all she wrote! People started jumping the rope, running around behind the line and even beginning to push others out of the way. Many men began to move the people back and begin to organize the mob a little more orderly. At least it stopped the pushing and shoving.

What the team had entered into was the manifestation of a full open heaven and **THE PRESENCE OF THE LORD WAS THERE TO HEAL!**

Everyone that was not saved got saved tonight! The atmosphere was absolutely electric! The miracles were very, very fast! I think we could have just sung worship songs over the people and they would have been touched. Just an awesome move of the Spirit. There was hooting, laughing, hollering for joy, jumping for joy all over!

Here is some of what I saw:

- My favorite: A young girl about 11 or 12 years old dragged herself up and said, “My right arm and right leg are PARALYZED, I cannot use them at all!” I picked up her little lifeless arm and held it in my hands, feeling the compassion of Christ for her. The look on her face I will never forget, both before and after. Beginning with the look of ‘I will never be able to live a normal life’ to... well, it was a 10 second prayer asking Holy Spirit to come and heal and BAM, her arm shot up into the air and her look changed to ‘I have my life back!’ She jumped and praised God and **when she gave her testimony there was an eruption among all the people of the village.** I gotta have more Lord!
- AIDS virus- lady said, “I know I am healed!”
- Babies brought by mommas with bad fever that was instantly broken and the babies went from crying to completely peaceful in a moment
- Children with the “flu” that felt really sick and instantly lifted their hands up and shouted for joy as His power came upon them
- Many people with crippled hands instantly able to use their hands normally
- **A young man that had an accident and broke his leg and it was in extreme pain, instantly restored and was jumping all around**
- One lady came and said, “I am being terrorized at night when I go to bed. Someone I cannot see is pushing me down into my bed and beating on me! And my womb is barren, I cannot have babies!” She was not saved and when I explained how Jesus was the only One that could set her free and keep her free and the only One who could give her babies and that she must receive Him, she said: “I am from another village and I cannot receive Jesus, I am a Muslim and my husband and family would KILL me!” She meant actually, physically KILL! We waited for a moment on Holy Spirit and then she said, “I must receive Him, I see He is the true God!” And She Did! Then we prayed for her. I see her holding her new baby!
- There was a man whose heart was beating very, very fast all the time. It felt like it was coming thru his chest. He was scared. We instantly

felt (and he felt) his heart slow down to normal and the fear left. He was excited!

- **People were running to their houses to get their sick family members and bringing them for prayer.**
- There was one young man that I saw mocking us during worship, when he saw what Jesus was doing, he busted through the crowds and very humbly told us of his bad back. He got Jesus and healing!
- A man came complaining of kidney pain. It looked like kidney stones to me. Wow, was he happy as the healing instantly came.
- There had to be 20-30 children that had head and stomach problems instantly healed. Every one of them rushed to the microphone to tell everyone what God had done. It was SO COOL watching the look on their faces as they realized the pain was totally gone!

No one was bashful tonight. For hours, it was continuous non-stop testimonies of the miracles. A few times I looked over and there was at least 5-6 people lined up waiting to give their testimonies constantly.

PROPHETIC WORD FULFILLED: THIS NIGHT EVERYONE IN THIS VILLAGE WAS HEALED!

Gary:

When we came to this village yesterday we were sitting in a mud hut and the homeowner came in to greet us. She said two pretty profound things. First she said that the rumors of what God had done through us had already reached the village. The last place we ministered is 2 hours away. The other thing was that she believed the EVERY sick person in her village was going to be healed. WE received her words as prophetic, but little did we know.....

The two conference days were awesome. The pastor's were like sponges. On Tuesday, the only person we prayed for (as we had those at the conference did the praying) was a lady that had some deliverance issues and physical pain. She left healed and free. The same lady had a dream that she was laying hands on the sick and they were recovering. Today, she came up and I worked with her in praying for 3 people that were all healed. She did all the praying and laying on of hands and all the pain was gone. One prayee had pain in her wrist and her forearm had a swelling. The swelling didn't go but the pain did. The lady that did the praying wanted me to pray that the swelling would go. IF the swelling went away then she would believe that God would use her to heal. How she had already prayed for 3 people who God healed. Holy Spirit told me not to pray for the arm but that remind the

lady what her prayers had already done. She smiled great big and the revelation hit.

In the crusade, heaven opened and the Sprit was present for healing.

Me and James (a local pastor):

We prayed for about 50 people that were all healed. The healings were coming very quickly. The Lord had me working with James, teaching him how we pray and how to listen to Holy Spirit. He was a sponge soaking up everything. Tony asked for words of knowledge and the Lord gave me tuberculosis. I never had a chance to give it. Tong gave 2 words and people responded quickly and strongly. I stopped to pray with one person who had back pain that God healed and the next thing we knew people were everywhere. I didn't have a chance to give my word but I prayed for 2 people that knew they had TB and 2 little ones that couldn't say but Holy Spirit had me pray against a spirit of TB in them. All were healed. One lady with TB also had very bad eyesight that was also miraculously healed. They were all able to breathe deep with no pain.

Another girl had pain in her shoulder and she couldn't life her arm. I laid hands on her shoulder but Holy Sprit stopped me from saying anything. After a few seconds we asked her how she felt. She raised her arm above her head and began to praise Jesus! God was showing James sovereign healing! WE prayed for many with headaches, chest pain and stomach pain. Here, this is usually a sign of a curse and demonic activity. After taking authority over the spirit of affliction and breaking any curses in Jesus Name, all were healed!

Another lady came up with a bad back that was paining her. After prayer we had her bend over and touch her toes. She stood up with a huge smile on her face. Pain free!

Another lady had pain in her knee that after prayer began jumping for Jesus! Another lady had a fluttering heart that after prayer felt healed. She said her heart was now "ba-boom, ba-boom" or normal heart beat.

Another lady had a weak heart that after prayer said she felt strong. One girl that had head, chest and tummy pain also had problems hearing. God healed her pain and opened her ears to hear perfectly.

Another lady, nearly blind, after prayer was able to see the small letters of a Bible. A mother brought her children who had rashes and God healed the pain. James got to see the difference between a miracle and healing. The miracle was the pain gone, the healing was the rash has now begun to dry up and will continue.

I had a couple of Christian mothers pray for their own children, in their authority, and the children were healed. A lot of children came up with

various sicknesses and pain. One little girl came up with the flu. After prayer, she was able to take deep breaths and went skipping away. Another girl had broken her hand a month ago. She couldn't make a fist and was in pain. After prayer she was looking in amazement at the fist she had made, pain free. One of the last that was prayed for was a boy who had a headache. Holy Spirit had me stand back and let James pray for him. The pain left and James eyes were like silver dollars. "That had never happened to me before!" he said. Before the meeting started, I was telling him that when we leave the revival doesn't have to stop, but the locals' can continue. With pastors like James, trusting in Holy Spirit, it will be in very capable hands.

Fredrick & Emily:

Pastor Tony emphasized very much on power of the Word. With allot of examples that helped many to understand the message because of its practicality.

Testimony

A young man had a painful heel for the last 25 years and when he was prayed for he received instant healing, and another one was involved in the motorbike accident one year ago, was taken to hospital, treated, still he had problem with pains in his knee. He could not bend it, after prayer, pains were gone and the knee was flexible he could bend it. A creative miracle! The apprentice ministers were amazed on how it was so easy when the divine principles are applied can produce tangible results.

2nd Session after lunch break Pastor Tony spoke about deliverance and also made demonstration that touched the lives of many; Gary acted a real demoniac and made us see where many have missed it. When carrying out deliverances and praying for the sick.

May 30 2007

Leaders Conference/Crusade at Buchimo villages.

Back to conference, when pastor Tony told everyone to find a partner and allow the prophetic word from the Holy Spirit over your partner's life and then pray over it, Gary and I were seated on the same couch, he became my immediate partner, we prophesied to one another, later I fell into a trance and I saw a picture of a big furlough field with one single tree, I could not understand the significance of the picture, when Tony asked people with a

Word of knowledge to stand up, many people came I was among them then I narrated what the Lord had shown me, a young man came forward and said I think its me for the description fits very well the land that my late father left for me and uncles are trying to drive me out of it, they have planted some witchcraft so that the moment I step on that land I must die.

I led him into confessions and renouncing then I broke the curse and the power of witchcraft and declared him free, as I was still in prayer for him, the Holy Spirit told that he is suffering from severe stomachache when I asked him about it he accepted and said it began yesterday and up to now I am still in pain, then I told him that I want to pray that the Lord heal you from stomach ache and when you get healed shall be a sign that you are free from a curse and that the Lord has restored your land back to you. When I prayed he received instant healing from stomachache, he was very happy I saw his face full of happiness.

As we were praying for people in the church, a man came to me and said to me, you have called me and here I am, now pray for me, for sure I had not called him at all, because I did not want to embarrass him, I just asked him if he is born again, he said yes (since yesterday in this conference), then I asked him about what he wanted me to pray for, he said, some years ago I had a wife, we disagreed then I kicked her out of the marriage, but her parents became so angry with me and consulted a witchdoctor who is also her relative and they bewitched me, I can't work, marry again, always sickly and my body always trembles and even my manhood is totally asleep it can't wake up, now please help me.

I asked him about the wife he had kicked out, he said I don't know where she is, and may be she got married to someone else. I asked him if he can forgive her and her parents for bewitching and even her other relative who is a witchdoctor, he said if that could help me then I am ready to do so.

I encouraged him in Christ and assured him about the power of salvation he has now in Jesus Christ, when I laid my hands on him the power of God descended on him, the whole body began shaking and sweating, later he told me that he is free he can feel, then I asked about his manhood he said he can feel some very unusual warmth.

At Crusade ground: tremendous power of God!

1. After Pastor Tony had ministered in the Word of God, he called the team forward, he moved into the Word of knowledge, he called out a man who fell from the bicycle and got hurt with fresh wounds to come

- forward, the man came in hurry within few seconds when Tony laid hands him he jumped up in great joy for he was instantly healed.
2. An elderly man about 70 years old by the name Okumu came forward for he was suffering from backache and severe headache he wanted to be prayed for. I asked him, are you born again? He said No! I asked again how do you want Jesus to heal and yet you have not received him? He answered and said, if He can heal me then I can receive Him, then we came to an agreement that if does not heal him there is no need for him to receive Him. I laid hands on him I asked the Presence of the Holy Spirit to come over his life in the language he could understand clearly and released the healing power over his life, and immediately I felt the power of God come over his body he also felt it, he was the first one to tell me that I can feel I am healed, I asked him to check about Jesus, he said, there is nothing that can stop me now from Accepting him as my savior, I asked again, if he can repeat that over the microphone before all people, because he an elder that was well known to almost everyone present. He boldly stood before the multitude and testified of what the Lord has done to him and that he has accepted Jesus as his personal savior. **Many of the other elders came for SALVATION in response to this elder's testimony.**
 3. A woman with 20 years old case of TB (tuberculosis), came coughing, severe headache, chest pains and her lips had turned red came for prayer, we prayed three times nothing happened to her she was still sick, then I asked her if she had ever visited a medical doctor, she said yes, I asked again, what did doctor tell you are suffering from? She said, it was TB. Then we began to deal with the spirit of TB, after prayer one time, she was completely, instantly healed.
 4. We prayed for many children, who came forward for prayer and most of them were suffering from chest pains and stomachache, the Lord healed them all.
 5. A woman with a swollen feet after being pieced by a poisonous thorn she also had chest pains and headache, we prayed for her and got healed and the pain in her feet disappeared, she could walk properly.
 6. A young boy with wounds on bottom of foot and very painful walking was miraculously healed **and the wounds closed up immediately as he was pounding his foot on the ground for joy!**

Alex & Sclar:

We are based in Bugiri because it the closest place with rooms to the bush area we are going to minister. It is a 2 hour drive each day, each way. This makes for very long days.

Most of the road is natural soil- sticky when it rains, then we wade in the mud, sometimes having to 4 wheel. Today it didn't rain, but the effects of yesterdays rain is everywhere, especially on the bottom of our feet and clothes. After praise and worship, Pastor Tony started the training:

My wife and I prayed for people who had problems with their throats, ears and hands as the Lord revealed thru word and visions. My wife prayed for a woman who had pain her throat and ear. The Lord healed her and testified of what the Lord had done. We prayed together for several people who had problems with their hands; The Lord showed me cleansing of hands. One Lady came who could not fold her hands. It had been like that for several years. WE prayed for a release and the Spirit of God to flow thru her. The Lord healed her. Her hands softened as she smiled seeing God had removed the numbness from her hands.

One mans hands trembled all the time and he could not grasp things quickly or normally. WE prayed over his hands and led him to renounce the inherited curses over his life. We cast out the spirit that had effects over his bones, in Jesus Name. After a few minutes praying with him, the Spirit of God touched him and healed him. He was so excited to see the trembling gone and he was healed. He lifted his hands and thanked God!

- We prayed for two people who had problems with their hearts. The hearts beat rapidly sending fear into their lives. Fear of the unknown. We spent time talking to them. WE cast out the spirit of fear of insecurity of their future, frustrations of life, and inferiority complex. Peace came upon them and we commanded their hearts to beat 72 times per minute, in Jesus Name. They both confessed of God's healing them and restoring their confidence in Jesus. God is good.
- There are others that wanted us to speak blessings over their lives. We did that as my wife hugged the women and I the men as we ministered to them.
- It was a VERY GOOD morning in His Presence!

Crusade:

The crusade grounds had about 350 to 400 in attendance. Pastor Tony preached about the gospel of the kingdom. He stressed that not one went away from the Jesus the same way as they came. "If you can hear me and come near to be prayed for, you will be touched!" Tony called upon the team to give words of knowledge. Many people came forward and the pressing in

kept increasing as the testimonies were forth over the microphone. It was very powerful and in general very, very fast miracles. I will now list a few of the very different things that happened tonight, rather than list the many healings.

- We prayed for a man who had with him 6 of his children. The wife abandoned him and got married elsewhere with another man. She then openly cursed the children in the hearing of many people and relatives. She did that always. This man was now desperate as the children were always sickly and the curses were taking their toll. I led him to forgive the wife and bless her. We broke the curses and renounced all the bad words spoken against the children. My wife then hugged the children, each in turn, after I had dedicated them unto the Lord. I used Isaiah 54.17 on each child. We then held hands and had the children stand in a circle for protection as we prayed for them, that the Lord provide for them, that they will not lack fees for schooling, etc. The countenance of the entire family changed, the children confessed healing and they left the grounds released and divinely protected from all harm. We praised God together!
- A man came forward who had had a headache at the center of his head, day in and day out, for many years. WE prayed for him and Holy Spirit quickly showed us that there was a spirit of infirmity. In Jesus Name we commanded it to leave and Holy Spirit touched him deeply! He was healed! He testified that he felt something leave his head and then he felt totally refreshed! Thank you God!
- A woman came with pains all over her body and a severe headache. My wife held her close hugging her as I prayed. We could feel the tension leaving her and lastly she slumped on my wife's shoulders crying. WE prayed for the love of God to fill her and pain to leave the body in Jesus Name. She looked up with tears on her face and said, "I am finally feeling very good now!" We hugged some more and she gave testimony.
- One lady brought her son, 12 years old. There is a time of about a year that the boy has become crazy, he keeps running away from home and staying out in the cold. I told her that we had to pray for her first. I led her into renouncing the blood covenants they had made with ancestral spirits. Then disconnected themselves from the ancestral curses by breaking them. By the time she was thru she was weeping as she remembered many times she was forced to sacrifice to the ancestral spirits. My wife prayed with her as I dedicated the young man into the hands of God, declared blessings upon his life, closed all doors

permitting evil spirits into his life and opened the heavenly door Jesus Christ into his life. The Lord blessed them.

- What an awesome night! Amen!
